

RATNA IRAWATI

Ratna Irawati is a pharmacist and a staff of Indonesian Drug Regulatory Authority - Badan POM. Ratna started her career in Badan POM in 1991 as an evaluator for New Drug Application, then moved to clinical trial unit in 2010. Previously she served as director for Drug Distribution Control and head of Planning Bureau. As a senior staff in a dynamic institution, Ratna has lots of experiences by leading Operations Management, Bioequivalence Study, and Special Access Scheme including Clinical Trial in which she was a GCP inspector for several years. Currently, she is the Director of Standardization of Drug.

Since 2008, Ratna is involved teaching in Clinical Trial Authorization and GCP Inspection courses. In addition to her role in GLO, she also facilitates local courses in Indonesia.

Ratna enjoys gardening and proud mother of three children.
